Section 4, Chapter 49:

A Listing of Phonic Patterns for Older Students

The following listing of phonic patterns is a listing of only those patterns that are rarely, if ever, systematically taught in traditional basal reading series. Therefore, if you expect to find the Vce pattern that makes the V (Vowel) Long as in words such as lake, here, bite, close, and flute, you will be disappointed. The elementary (or "SIMPLE" as we call them) are assumed to be known. A complete listing of those patterns can be found in Suggested Order of Diagnosis & Remediation of the Type #1 Words, The "Simple."

THIS LISTING is in ALPHABETICAL ORDER NOT in the SUGGESTED ORDER of DIAGNOSIS & REMEDIATION OF TYPE #2 WORDS, THE "FANCY."

The reason for this particular order is to enable teachers, researchers, and writers to devise their own check lists and orders of presentation. The first ordering is alphabetical by spelling pattern. The second ordering is alphabetical by sound pattern.
